I. POLICY FOR THE POLICE AND FIRE DEPARTMENT

It the policy of the City of Springfield to ensure that steps are taken to provide for effective communication for persons that are deaf and hard of hearing.

II. PROCEDURES

A. When a Springfield responding police officer or fireman comes in contact with a person who is deaf or hard of hearing, that person must determine if he/she is capable of providing effective communications with the deaf or hard of hearing person to resolve the issue.

B. Several techniques or process can be used to effectively communicate with a person who is deaf or hard of hearing.

1. Request what method is needed.
2. Use of hand written notes.
3. Use of typewritten notes or text.
4. Use of sign language.
5. Use of a certified interpreter.

C. Contacting the Interpreter

If the technique or process that most effectively communicates with the deaf or hard of hearing person is the use of a certified interpreter, the following procedure will be used:

Note: (The city must give primary consideration to the request of the individuals with disabilities.)

1. The responding police officer or fireperson will contact the supervisor and advise the supervisor of the need for an interpreter so that effective communications with the deaf or hard of hearing person will occur.
2. The responding police officer or fireperson or there supervisor will contact Sangamon County Combined Dispatch (SCCDS) and ask SCCDS to contact a certified interpreter for a deaf or hard of hearing person.
3. Upon arrival at the scene of the interpreter, the responding police officer or fireperson will brief the interpreter on the situation, and the message/information that needs to be relayed to the person who is deaf or hard of hearing.
4. When the person who is deaf or hard of hearing requires immediate hospitalization, it is the ambulance driver who will notify the hospital emergency room of the need for an interpreter; the hospital will then contact an interpreter.

D. Payment Responsibility

When the use of an interpreter is requested by the responding police officer or fireperson in order to provide for effective communications, the City of Springfield will be responsible.

Note 1: Each department will be responsible for payment of its use of an interpreter.

Note 2: When the person who is deaf or hard of hearing is sent to the hospital by ambulance, the hospital will be responsible for payment for the interpreter.

Upon the conclusion of the interpreter's service, the supervisor or responding police officer or fireperson will complete a requisition form to commence the process to compensate the interpreter.

a. The requisition form will contain at a minimum:

- 1) Name, Address, City, State, Zip Code, Phone number of the interpreter.
- 2) The name of the requesting police officer or fireperson and/or the supervisor of the department
- 3) The date, time, location, file number of the call for police service (if required)

CITY OF SPRINGFIELD REASONABLE ACCOMMODATION REQUEST PROCEDURES

I. POLICY

It is the policy of the City of Springfield to inform employees and applicants of the right to reasonable accommodations and to provide such accommodations in the most cost-effective manner available unless it would impose an “undue hardship”.

II. PURPOSE

The purpose of the policy is to ensure that requests for reasonable accommodations are considered in a timely manner and in a way that is consistent with the Americans with Disabilities Act.

III. PROCEDURES

A. An employee must request any and all reasonable accommodations on a “*Request for Reasonable Accommodation Form*.” This form can be obtained from the employee’s immediate supervisor or the Office of Human Resources. The employee is responsible for adequately responding to all questions on the form. Once completed, the form, along with any medical documentation supporting the request, shall be submitted to the employee’s immediate supervisor.

B. The immediate supervisor shall:

1. Grant the request if able to do so without obtaining further authorization. The immediate supervisor shall then indicate on the “*Request for Reasonable Accommodation Form*” that the accommodation has been made and forward the completed form to the ADA Coordinator; OR
2. Make a recommendation to the Division Head regarding the request within five (5) working days of receipt of the completed “*Request for Reasonable Accommodation Form*” and forward the request directly to the Division Head.

C. The Division Head shall make a recommendation regarding the request within five (5) working days of receipt of the “*Request for Reasonable Accommodation Form*” and shall forward the request directly to the Director.

D. The Director will make the final decision regarding the request within five (5) working days of receipt of the “*Request for Reasonable Accommodation Form*”. A copy of the Director’s decision shall be given to the Division Head, immediate Supervisor and ADA Coordinator. The immediate Supervisor shall be responsible for providing the employee with a copy of the response within five (5) working days of receipt of the Director’s decision. If the

recommendation is to grant the request, the immediate supervisor shall be responsible for the implementation of the request.

E. All reviewers shall consider each request based on the following criteria:

- The relationship between the accommodation and essential functions of the job;
- Necessity;
- Cost effectiveness;
- Undue hardship; and
- Compatibility with existing equipment (where applicable).

IV. UNDUE HARDSHIP

Reasonable accommodations do not have to be granted if they impose an undue hardship. However, consideration must be given to whether another accommodation exists that would not result in an undue hardship. Factors to be considered in determining whether a reasonable accommodation request poses an undue hardship include:

- the nature and cost of the accommodation;
- the overall financial resources of the facility , number of employees at such facility and the effect on expenses and resources;
- the overall financial resources and size of the employer, including the number of employees and the number, type and location of its facilities;
- the type of operation including composition, structure and functions of the workforce, geographic separateness and administrative or fiscal interrelationship;
- the impact of the accommodation on business operations.

V. APPEAL OF DECISION

If the employee wishes to appeal the Director's decision, the employee must file an appeal with the City's ADA Coordinator within ten (10) working days of notification of the decision. The request shall include the reasons for the request for reconsideration and, if appropriate, alternative suggestions for a reasonable accommodation. A decision shall be made and the employee notified within ten (10) working days of receipt of the appeal. The decision of the ADA Coordinator constitutes the final administrative action.

VI. EXTENSION OF TIME LIMITS

The time limitations provided in Section IV may be extended if circumstances warrant; e.g., absence of a person needed to make the determination, additional information required, etc. The individual requesting the reasonable accommodation shall be notified if an extension is required and shall be given the date of the extended deadline.

VII. MEDICAL VERIFICATION

At any time during the review process, medical documentation may be required to assess the accommodation request. It will be the responsibility of the employee/applicant to provide this information. The medical report(s) must include documentation supporting the need for the specific requested accommodation.

VIII. JOB APPLICANTS

This policy shall also apply to applicants for positions with the City of Springfield. Applicants who are requesting a reasonable accommodation to perform the essential functions of the job will also be required to complete the “*Request for Reasonable Accommodation Form*.” Applicants may request the “*Request for Reasonable Accommodation Form*” from the Office of Human Resources.

Emergency Evacuation Plan for People with Disabilities

There are both audible signals and visual signs

1. Some people with disabilities may not want assistance. In such cases, the fire warden should alert the fire department to their last known location.
2. For those who do want assistance, below are some suggestions:
 - a. People who are unable to walk - If located on an upper floor, the employee may be assisted to a stairwell landing to await evacuation or further instructions by fire department personnel. It is important that the co-worker or “buddy” who is assigned to the person with the disability stay with the person until the emergency is over or ensure that the person with the disability is provided with a walkie-talkie, and, is capable of using it.
 - b. People who can walk with assistance: These employees may not be able to travel to a safe area quickly. A co-worker or “buddy” may be designated to assist and accompany the person in descending the stairs in the event additional help is needed, or the individuals may choose to wait in a stairwell for fire department personnel to assist them. It is important to inform the fire department personnel of this decision. Someone should be assigned to stay with this person until the emergency is over, or, insure that the person with the disability is provided with a walkie-talkie and is capable of using it.
 - c. Visual Impairment: Those individuals with poor vision or no vision may not realize the extent or location of an emergency, and may walk into unexpected objects in paths of escape. An employee with a visual impairment can proceed down the stairs with minimal assistance from a sighted coworker. The individual may prefer to hold on to the sighted person’s elbow and walk a half-step behind. Someone should follow behind to protect the employee from being pushed down in the event of crowding. It is best if someone remains with the employee until the emergency is terminated.
 - d. Deaf or Hard of Hearing: Deaf and hard of hearing individuals may not be able to distinguish audible warning alarms or respond to voice communications. They may be able to see a visual alarm; if so, they should be able to evacuate with the other employees. If there is no visual alarm nearby, personal notification in the form of sign or hand gestures will be necessary. It is especially important that the floor warden check in restrooms, copy rooms, and kitchens in case an alarm may not be seen from that area. To get the attention of deaf or hard of hearing employees, flick the room light switch on and off to convey the need to communicate.

Evacuation Procedure for People with Disabilities:

1. The floor warden must know the whereabouts of every person with a disability who is in the work area and know who that person is.
2. Each floor warden shall designate an assistant and an alternative to assist the person with the disability to the secure stairwell.
3. Before leaving the person with the disability and the co-worker/buddy in the area of refuge, the floor warden shall give the person(s) a walkie-talkie set.
4. If the person with disability is capable of operating the walkie-talkie, the co-worker/buddy may choose to proceed out the building to the assigned meeting area.
5. The floor warden shall keep the other walkie-talkie for communication with the person(s) in the area of refuge.
6. The safety supervisor and the floor warden shall descend the stairwell making sure all the doors in the stairwell are closed.
7. The floor warden shall exit the building and shall notify the fire personnel where the persons with disabilities are located in the areas of refuge.
