

NOTICE REGARDING SIGNS IN EASEMENTS

City of Springfield Department of Building & Zoning Room 304 Municipal Center West Springfield, IL 62701 789-2171
April 2007

This notice is being distributed with sign permits to remind building owners and sign contractors of a key requirement in regards to installing a sign in an easement. If a sign (Defined for this Notice as including the sign and its associated structure, foundation, electrical components, etc.) is installed in an easement and is later found to be in the way of installation or maintenance of equipment in the easement, the building owner will be responsible for removal and replacement of the sign. If the owner does not remove the sign occurring in an easement when asked to do so, then the City would remove the sign, and would not be responsible for replacement of the sign. If the building owner or sign contractor would like to research locations of easements, contact the engineering office of Public Works at 789-2260.

Before digging anywhere, always contact JULIE at least two full working days before digging at 1-800-892-0123.

The undersigned agrees to the above requirements:
